My prediction based on what we've seen so far:

Dominion used to switch votes at such a small number "no one would notice".

Trump turn out was higher then expected.

Switched votes turn to higher numbers due to switching "glitch". Uh-oh.

"Glitch" not enough to sway election.

PAUSE THE VOTE COUNT!

Ballots for Biden in key states must be filled out quickly. No time for down ballot voting.

4am ballot dump happens in key states all dumped ballots for Biden (a statistical impossibility).

Counting resumed without GOP observers.

Observers being blocked out due to cheating. Illegal.

Trump has all documented proof due to his position and knowing that the steal was in the works back in June.

Has enough evidence. They're fucked.

When GEOTUS does start to release the MOABs he has, it needs to be a shock and awe, media blitz campaign. Make the drops so big and so pervasive that no even remotely logical media narrative can form.

Agree. I'm usually in favor of the Breitbart 'slow leak' method to catch them in unavoidable lies, but now's not the time for that imo.

It's time for full throttle shock-and-awe to defeat these treasonous scum once and for all, and that includes the media.

And for the love of God, many in the media better be looking at arrests because believe me - if there's no justice done by man's law *it will* happen via God's law.

Fucking commie scum.

Turn it to the same 11 they turned BLM, ANTIFA, and every other shit brain cause they burned a city for.

I'd love to see the media brought up on charges myself. They've been helping to radicalize people for the last 4 years. They've helped turn passive left leaning folks into militant, brainwashed, dangerous idiots. They laid a lot of brick in the creating of two realities and they did so willingly for the fuckin money and the clicks.

Once committed to the lie, there is no going back for liars. Liars never admit to lying.

We have to provide a life boat to Joe Biden as much as we don't want to.

It makes total sense. No one believed the demoralization polls. Biden up 17% nationally?

Trump probably crushed this so hard he was truly up in the 380's.

This stuff takes time, and I imagine Trump will wind up calling in all state legislatures to provide the evidence to them and probably the electors as well. No way we see criminal charges this year.

Best simple linear breakdown so far. Also explains 100,000s of ballots with mismatching signatures, same day registration, only voted in presidential race nothing else (they were in a hurry and had a one track mind). If the race was legitimately close, they could have cheated their way to victory and no one would have ever known. What's a few hundred ballots here and there for an electoral edge? But it wasn't close. Trump was so far beyond the horizon it called for unprecedented, no, imperceivable levels of cheating And it became blatantly obvious. Remember people, we're not the only ones mad. There are people out there, normies, who voted Trump and had every reason to suspect that everyone else they knew did the same. People talk. They gossip. Word on the street. Everyone is thinking the same thing: there is no fucking way Biden won.

Not fake turnout for Biden like in Milwaukee, I mean more rural areas turning out at 75+%.

^This. Everyone's discussing this election. Is there any reason to believe this is the first time?

How about 2012? We were essentially in a depression, and even if you blamed Bush for causing it, it had been 4 years, and we hadn't come out of it even a little bit.

No way a sitting President wins re-election with that sustained stagnant economy.

I'm in Virginia - we've been acting under the assumption that VA's transition from Red State to Blue State had to do with the influx of Marylanders, and other undesirables to those NoVa swampy counties.

In light of all this, I'm beginning to wonder if such a electoral transformation even occurred.

It was the quick and decisive bulldozing in Florida that made the Democrats realize they were in trouble.

The networks held off on calling it, while Democrats figured out if they could cheat there. Not with Gov. DeSantis watching.

Notice the Midwestern states paused updating numbers around half an hour after the networks called Florida?

That would be both a libelous and litigious statement to make if you did NOT have the receipts to back it up. Imagine saying that about Exxon on a gas price-fixing investigation without proof. They would have an army of lawyers descend on your ass and sue you to infinity. If Dominion does not file a major libel suit against Rudy's team in the next day or so, it can almost be assumed to be true.

He may be trying to persuade whistleblowers to come forward in fear. If so...

(a) If Rudy's got the goods, more whistleblowers with immunity would ace it. Win. (Given that EO, I think he's got em)

(b) If he doesn't have the goods, he may think the evidence is so circumstantial (the improbables) that whistleblowers will definitely appear. I'm no so sure they would. Then if they don't, what happens is anyone's guess.

SHUT UP AND DO IT!! You either have something or you don't. Stop the Hannity "tick-tick" bullshit. Nothing ever happens and now supporters are openly attacked in the streets. It's not a game and the cavalier attitude while Trump is still losing isn't inspiring. It's pissing me off. Fucking produce or shut up!

Your frustration is more than relatable and understandable. Take solace in that the following are the only outcomes (in my view, anyway):

1. They're telling the truth and there will actually be pushing in of the shit, at last
2. This falls through and we finally take to the streets. This is it. It's the endgame. I'm not living in a fucking police state where a shadow cabal of communist bureaucrats and community organizing faggots call the shots as we serve as tax cattle.

The media will burn first, then D.C. Fuck antifa. These fucking cowards haven't seen shit yet. And we have a long fucking list of domestic enemies that we have a constitutional and moral duty to remove by fucking force.

Fangs, the thing that comes to mind for me, is when Geotus first announced that his campaign had been spied on ("without evidence"). Then he just let it stew for a long time, while Dems and the IC denied and ridiculed! Then he brought out the witnesses and irrefutable evidence.

I think he likes to allow time for his adversaries to show their asses, and also to put a big spotlight on the problem that would lead to something being done about it that otherwise wouldn't happen.

Unless it is so damming no one can deny it later, why not release now? It will force states to audit and recount and we will have time. Longer we wait the less time we have. Unless the evidence is so damning, I don't understand the wait.

The longer they leave it the more time MSM / Dems / SJW's have to dig their own graves, it enables a better chance of peace on the other side. They want only hardcore Antifa left to demolish once this is done, all moderates they want on our side that's the goal, to avoid civil war or something like it.

These drops aren't just for you and other supporters, they are for the conspirators and their lawyers. These announcements are causing panic and knee jerk reaction from their lawyers desperately trying to get in front of it, and then making stupid mistakes, like submitting affidavits showing some of their fraud. This is a I know what you did last summer type tactic, a toss in a cat to watch the rats scurry about. Usually you keep your cards close to your chest, unless you hold the nuts and know your opponent is already all in.

I am kind of with you bud, but I have to trust Trump at this point. Stay calm and take a breather. If what they are hinting at is true, people might be executed at the worst and at the least arrested and charged. I used to kill pigeons that would roost in nooks around our house. All night they would coo and scratch. I would wait until the pitch black of night and get my bb gun and a flashlight. Just like a deer, you shine light in their eyes and they freeze. \*pop \*headshot, \*pop \*headshot, then leave on the ground so wildlife would eat the bodies.

I think what people have to understand is by being the President's lawyer Rudy will have access to information civilians can't find. Remember President of the United States commander and Chef over DOJ,DOD, NSA DHS FBI CIA, MILITARY INTEL and etc. So more than likely there will be information that Rudy and other President

Trump lawyers have that we can't google or search for because we're just not allowed to see it. That's why it's insane question Rudy, Powell or any of Trump lawyers credibility if they say something you can't go to a media source or a tweet to find. This site is a great information source but we can't grab the information off people's phones or listen to their phone calls well not legally. The NSA and other intel agencies can. If someone deletes tweet we may not be able to find it again but I bet the intel agencies has it somewhere. So more than likely President Trump already knows who did what and when it happen. He is just preparing us for the big reveal.

Rudy said that is possible "votes are sent to a foreign country where they are calculated and then they know how many votes they need" or something along those lines.

BUT RUDY NEVER SAYS THAT HE HAS A CALL OR EVIDENCE OF A CALL.
